EXCLUSIVE REPRESENTATIVE IN POLAND
WOLSTENHOLME MACHINE KNIVES LTD

www.wolstenholme.co.uk

We supply industrial knives and blades for the packaging, cutting, perforating machines, as well as many others used in the food, pharmaceutical, bookbinding, printing, paper, tobacco, textile, wood, furniture industry, etc.

Knives and blades are manufactured according to the original standards and the strictest flatness standards, as well as with strict accuracy of the profiles of the teeth. This meets the requirements of European and American standards.

In order to extend the lifetime of each type of knife and blade, every piece can be covered with titanium or Teflon coating.

For the production we use highest quality steel, which is delivered by world's leading steel plants. The largest manufacturers of machines equip their products with our knives and blades.

Types of knives:

- ▼ serrated knives and chasers
- ▼ wavy and straight knives
- ▼ disc and rotary cutters
- ▼ frame and rotary point cutters
- ▼ zig-zag knives with an anvil
- ▼ knives for shears
- ▼ fixed and movable knife pairs
- ▼ knives for cutting out handles
- ▼ knives for cutting out Euro holes

Steel grades:

- ▼ stainless steel
- ▼ spring steel
- ▼ high speed steel (HSS)
- ▼ carbon steel
- ▼ tool steel

We also realize individual orders and are capable to manufacture any type of knife and blade.

Our stock is always available for regular customers. This means that the orders can be realized within just 2-3 working days.

We also provide services in the field of regeneration of knives and blades.

NEW !!!

Knives for derinding machines, membrane skinning machines, plotters and cutters. Doner and gyros electric knife disk blades.

If you have any problem with cutting, packaging or perforating, please do not hesitate to contact us! Our technology and vast experience is at your service.

If you need our quote, please provide the following data:

- producer and type of machine with the number of knife or
- technical drawing or knife sample

Our knives and blades are offered at competitive and negotiable prices.
